Jenny,

I didn't get to this yesterday, but it looks reasonably good. I might have caveated the penalty tables with the assumption that Congressional appropriations for each pot of funds (NOAA 306 & 309 and EPA 319) is static (... which has not been the case, but what are you going to do?). Also—and perhaps more importantly—did you mean to include phone #s for your contacts? If you do end up amending the backgrounder, you should also list EPA HQ contacts: myself (as EPA HQ CZARA coordinator) and my branch chief, Lynda Hall (hall.lynda@epa.gov; 202-566-1210).

Thanks to all of you for all your comments on short notice. I went ahead and sent out the Q&A, since tomorrow looks to be a busy day, and I'm always a little paranoid about my computer crashing. Attached below is the version in tracked changes, though I made a few changes after this version. I put in everyone's comments and tried to meld them so it wasn't redundant.

The spreadsheet and bullet list that Allison sent was great.

Ex. 5 - Deliberative

Ex. 5 - Deliberative

Thanks again! I'll be very happy when Jayne comes back, but will keep on staying involved as I've been before. I had a Midcoast call today and left feeling a little depressed, so I'm glad that we're trying to have a broader-based discussion with the Governor's office.

Alan, I'm sorry I didn't get a chance to run this by you. FYI, for now, and we should talk more about how we plan to organize meetings especially with recent conversations with our attorneys and NWEA's.
